## HIGH ALPINE SKILLS COURSE

7<sup>th</sup> – 12<sup>th</sup> December 2024

Photo: Clare Shepherd– 2019 HASC

# NEW ZEALAND ALPINE CLUB

7<sup>th</sup> – 12<sup>th</sup> December

**LOCATION:** Mt Aspiring National Park

**ACCOMODATION:** Alpine Huts

**COURSE FEES:** \$2,100

### Who is this course for?

The NZAC's High Alpine Skills Course (HASC) is designed for enthusiastic intermediate mountaineers who are looking to learn the skills to travel safely on glaciated terrain and lead climbs on New Zealand's high alpine peaks.

Participants should be competent in all of the course outcomes from the NZAC's Intermediate Snowcraft Course ( <https://alpineclub.org.nz/parkside/wp-content/uploads/2020/01/NZAC-Intermediate-Snowcraft.pdf> ) and have put these skills into practice on moderate (non-glacial) peaks.

Please see the NZAC Course Pathway prior to registering for this course. <https://alpineclub.org.nz/alpine-climbing/courses/>

Photo: Caryl Ramos

Please do not apply if you are not competent in the course outcomes from the NZAC Intermediate Snowcraft Course or do not have climbing experience.

# GENERAL INFORMATION

## Course Syllabus:

### Preparing for the high alpine environment

- Clothing/equipment
- Trip planning resources (avalanche forecasts/weather forecasts/guidebooks)
- Weather
- Navigation
- Using aircraft for access
- Selecting appropriate objectives

### Being and moving in the alpine environment

- Pitched climbing on rock and snow
- Glacier travel
- Snow anchors
- Rock anchors
- Route section in the high alpine environment
- Snowpack observation and avalanche hazard evaluation
- Descending technical terrain

### Changing Circumstances

- Crevasse Rescue
- Use of avalanche safety equipment including transceiver search
- Techniques for emergency shelters (snow shelters/ bothy bag) in the high alpine environment
- Emergency procedures for the high alpine environment

## Accommodation:

Accommodation is provided as part of the course fees. During the course high alpine huts will be used (typically Aspiring, French Ridge, Liverpool). Participants are asked to bring a bivvy bag or lightweight tent as this gives more flexibility.

## Access:

This is the first walk in/walk out High Alpine Skills Course we have run. It has a lower impact on the environment and also means we can make it more affordable if not using helicopters.

Photo: Michael Wilson

## Instruction

The course will be run on a 1:4 Guide to participant ratio. All courses are delivered by fully qualified and experienced IFMGA Guides or NZMGA Climbing Guides. All participants must agree to follow the Guide's instructions and directions. Four participants maximum per group.

## Fitness

It is crucial that all participants have suitable fitness for the course. Feedback from participants shows that those with a higher level of fitness not only enjoy the courses more, but they also have a greater capacity to learn whilst in the mountain environment. As a rough guide for fitness, you should be able to:

- Jog at a moderate pace for 5-8 kms without stopping and/or
- Hike 300 metres uphill (1,000 ft.) in less than an hour, with a 12 kg pack.
- **The ability to carry a 18kg backpack up hill in both hot and cold conditions, over an 8–10-hour day is vital.**

## Food:

Participants are advised to pair up and organise their own food. Contact details of the other participants will be shared prior to the course. **It is not recommended to solely rely on dehydrated food for sustenance however make sure you have at least one meal suitable for preparation in the less luxurious bivy conditions.** Keep in mind that food needs to be lightweight and capable of being cooked in a billy or pot over gas. Please remove all unnecessary food packaging before coming.

## Start time

**Start time will be at 8am on the first day of course.** Participants will carpool to get to the Matukituki Valley road end. Your instructor will advise where to meet in Wanaka closer to the course. The guide will do an equipment check and briefing so please make sure that all gear is readily accessible and you are fed and ready to go. The course will finish mid to late afternoon on the last day.

## Course Fees

The course fees are \$2,100.00 Full payment is required upon booking and your place is not confirmed until this is received. All participants must be NZAC members at the time the course starts.

No refunds will be available should you cancel within 60 days of the course start. Any refunds outside of this are at the discretion of the NZAC National Office and will depend on whether a replacement can be found.

The course fee includes accommodation during the course and all instruction. It does not cover food. It is the participants responsibility to bring and arrange this.

It is important to note that once on the course if you decide to leave the course early for personal reasons no refunds are due for courses voluntarily reduced in length. If weather and/or conditions require the course objectives/itinerary/length to be modified no refund is due. The NZAC tries to minimize the impact of bad weather on courses. At times the best option may be to relocate the course. If this is the case the instructor in charge will liaise with all course participants.

No refunds are due for leaving the trip for medical or fitness reasons. Exceptional circumstances may be considered and are at the discretion of the NZAC.

## **Insurance**

We recommend you take out travel insurance and/or personal insurance as part of your preparation for participating on NZAC Instruction courses. NZAC offers some insurance options for both New Zealand and Australian residents available on the NZAC website that include cover for having to pull out of a course at short notice due to Covid.

## **Emergency Situations and Risk Disclosure**

The Course Instructor will have Emergency Management Procedures in place and a Satellite phone to immediately contact rescue services in the case of an accident or emergency. It is encouraged to take your own personal locator beacon if you own one.

The natural environment and climbing activities can involve risks that may result in injury or death. While recognising that the course organisers and instructors are doing their best to manage these risks, and agreeing to accept their direction whenever required, you must accept personal responsibility for your own actions and safety. You must also accept to follow the instructions of the Course Leader and other instructors at all times.

All participants on the Course are expected to be as honest and transparent as possible about their experience and fitness as part of their application. If a participant's lack of fitness/ability severely affects the running of the course, the participant(s) may be asked to not participate in certain activities. Arrangements may be made to evacuate the participant(s) at their own cost. The instructor is the final arbiter in these decisions.

## **Publications:**

We recommend that people do some pre course reading. This gives a good theoretical understanding of the techniques taught on the course. Taking the time to read one of the books below is recommended.

A Climbers Guide to NZ Mountaineering
---------------------------------------

Alpine Guides Technical Manual
--------------------------------

Here is the link if you would like to purchase one.

<https://shop.alpineclub.org.nz/product-category/guidebooks/instruction-manuals/>

If you are logged in, you will get the discounted, member price.

## Gear list:

Overleaf you will find a full list of the equipment you will need. **Please ensure the gear is modern and fit for purpose as there will not be time to remedy any gear issues prior to walking in.** Some NZAC Sections hire mountaineering equipment. It is the individual participants responsibility to hire and return and kit.

Auckland Section Gear Hire

**Please be careful purchasing any climbing or mountaineering equipment online. The NZAC recommends kit is purchased from a reputable outdoor retailer. This ensures your kit meets international standards and is not fraudulent. See <https://www.theuiaa.org/uiiaa/is-your-equipment-really-certified/> for more information.**

## Equipment (per pair) list:

Item	Specification	#
<b>Rope</b>	60m dry treated lightweight single rope	1
<b>Rock gear: Cams</b>	(#0.5 – 3)	3-4
<b>Rock gear: Wires</b>	Assorted sizes	6-8
<b>Quickdraws</b>	Extendable (made from a 60cm sling)	4
<b>Tape Sling or Cordelette</b>	17mm tape or 6mm cord x 6m	1per pair
<b>V-thread (abalokov) hook</b>	Bought preferred, homemade accepted	1
<b>Cooker</b>	Plus fuel for 5 days for 2 people	1
<b>Pot</b>	For cooking	1

## Individual gear list:

Item	Specification	#
<b>Harness</b>	with adjustable leg-loops	1
<b>Helmet</b>	rated for mountaineering/climbing	1
<b>Pack</b>	alpine 55-70L suitable for carrying a heavy load and also compressible for climbing	1
<b>Sleeping bag</b>	Suitable for a night bivvying	1
<b>Locking carabiners</b>	Not magnet lock	4
<b>Snaplink carabiners</b>		4
<b>Belay device</b>	Black Diamond ATC® or similar	1
<b>Long slings</b>	2 x 120cm	2
<b>Prussik loops (6mm)</b>	long (from foot to chest)	1
	short (from belly-button to eyes)	2
<b>Pack-leash x 60cm</b>	prussik cord (6mm x 120cm)	1
<b>Ice Screws</b>	16-22cm with fold out handle	2
<b>Progress capture pulley</b>	e.g. Petzl Microtraxion® - recommended	1
<b>Ice axe (+ leash optional)</b>	50-75cm walking axe (not a technical ice climbing tool)	1
<b>Ice hammer (+ leash optional)</b>	50cm approx..	1
<b>Crampons</b>	Steel crampons, 12 points, must fit boots well & have anti-ball plates	1
<b>Mountaineering boots</b>	Good quality, full shanked, insulated, fit crampons well	1 pair
<b>Snow gaiters</b>	snug, clean profile on inside of foot/leg	1 pair
<b>Rock shoes</b>	These are compulsory however may not be used on all courses	1 pair
<b>Snowstake</b>	With a mid-clip cable/sling or 'T' section preferred	1
<b>Headtorch</b>	plus spare batteries	1
<b>Water bottle</b>	If you are bringing a bladder bring a back-up	1
<b>Compass</b>		1

<b>Maps</b>	Aspiring Flats CA11 (can be printed from topomaps.co.nz)	1
<b>Transceiver</b>	3-antennae digital modern (trip dependant)	1
<b>Shovel</b>	With telescopic handle (trip dependant)	1
<b>Probe</b>	240cm+ (trip dependant)	1
<b>Personal 1<sup>st</sup> Aid Kit</b>	Including necessary or emergency personal medication	1
<b>Toiletries &amp; Poo pot</b>	Including toilet paper	1
<b>Bivvy bag</b>	or lightweight tent (2-person shared ok) Optional	1
<b>Sleeping mat</b>	foam or inflatable - Optional	1
<b>Walking poles</b>	Optional	1
<b>Personal Locator Beacon</b>	Optional	1

## Clothing List

Again, it is important that participants are sensible about how much clothing and personal items they intend to carry in order to keep the packs at a reasonable weight. But then again, you don't want to be cold. An alpine-spec shell system and a down or synthetic jacket or heavy weight fleece for bivvying is **essential**.

Item	Specification	#
<b>Warm beanie</b>		1
<b>Glacier glasses</b>	AS/NZS cat 3 minimum, 4 preferable and a pair of backup sunglasses or ski goggles	1
<b>Neck gaiter</b>	E.g. Buff®	1
<b>Sun defence</b>	Peaked sun-hat, sunscreen	1
<b>Alpine shell jacket</b>	GoreTex® or equivalent. Good Quality	1
<b>Alpine over trousers</b>	GoreTex® or equivalent, leg zips. Good Quality	1
<b>Gloves lightweight</b>	e.g. polypro, wool	1 pair
<b>Gloves insulated waterproof</b>		1 pair
<b>Insulated Jacket</b>	Down/synthetic (preferred) or extra heavy fleece	1
<b>Mid-layer jacket</b>	Fleece or softshell	1
<b>Thermal pants</b>	Polypro or merino	1 pair
<b>Thermal tops</b>	Polypro or merino	1-2
<b>Lightweight glacier shirt/long sleeve hooded technical top</b>	To keep the sun off	1
<b>Socks, underwear</b>	Optional foot warmers	2 sets
<b>Hut shoes</b>	Optional	1 pair
<b>Face covering</b>	Fabric reusable face covering that covers mouth and nose	1
